PRODUCT INFORMATION SUMMARY

Rabbit IgG CONTROL

Catalog No. CNR500

SIZE: 0.5 mg

ANTIGEN DISTRIBUTION AND SPECIFICITY:

Rabbit polyclonal antibodies produced from serum of rabbits that have not been immunized. Designed as controls to assess non-specific binding in related immunological procedures.

SOURCE:

Affinity purified from rabbit serum using ion exchange chromatography. Provided lyophilized from PBS, additive-free.

HANDLING AND STORAGE:

Antibody should be reconstituted with 500 uL sterile or distilled water. Further dilutions can be made in PBS or other buffered solutions. For long-term storage store aliquots frozen (-20 deg. C.), undiluted.

PRODUCT USE:

Use at similar concentration as primary rabbit antibody in assay, to determine non-specific binding or functional control.

WARRANTY:

Products sold hereunder are warranted only to conform to the quantity and contents stated on the label at the time of delivery to the customer. There are no warranties, expressed or implied, which extend beyond the product label description.

RESEARCH USE ONLY. NOT INTENDED FOR THERAPEUTIC OR DIAGNOSTIC USE.
