PRODUCT INFORMATION SUMMARY

ANTI-Rat GRO Beta/MIP-2 (Polyclonal Rabbit)

PRODUCT NUMBER RRF428	Purified	0.1 mg
PRODUCT NUMBER RRF428B	Biotin	50 ug

ANTIGEN DISTRIBUTION AND SPECIFICITY:

Rabbit polyclonal antibodies specific for RAT GRO Beta/MIP-2. Developed using highly purified recombinant Rat GRO Beta/MIP-2 as immunogen. Further purified by **Antigen-Affinity Chromatography** to produce high titre, highly specific preparation.

Source: Sterile filtered in PBS, purified from rabbit serum.

Characterization:

ELISA: Antibody concentration of 0.5 ug/mL was used (100 uL/well) to detect 0.4 ng/well recombinant Rat GRO Beta/MIP-2. For **Biotin conjugate** use @ 0.2 - 0.3 ug/mL.

NEUTRALIZATION: Antibody concentration of 5.0 ug/mL was used to achieve one-half maximal inhibition of 100 ng/mL Rat GRO Beta/MIP-2.

WESTERN BLOT: Antibody concentration of 0.2 ug/mL was used to detect 1.5 ng/lane Rat GRO Beta/MIP-2 under both reducing and non-reducing conditions.

HANDLING AND STORAGE:

Reagent supplied as sterile-filtered, lyophilized and additive-free. **Store frozen at -20 deg. C.** Purified antibody should be diluted with 100 uL sterile water. **For Biotin conjugate** reconstitute in sterile PBS **containing 0.1% BSA.** Further dilutions should be made in a buffered/protein, or other stabilizing medium to a concentration suitable for use in specific protocols. For long-term storage, all reagents in a liquid state should be re-frozen in small aliquots, or add preservative (ie. 0.1 % sodium azide or similar) to store liquid at 2-8° C when not in use. (as suitable for particular application). Avoid repeat freeze-thaw.

Reagent is stable for one-month, without preservative, in liquid state, as described above. Reagent is provided preservative-free.

FOR RESEARCH USE ONLY. NOT INTENDED FOR THERAPEUTIC OR DIAGNOSTIC USE.
