PRODUCT INFORMATION SUMMARY

ANTI-RAT T-Cell Receptor Gamma/Delta

Anti-TCR	Product Number	MR922220	0.12 mg
Anti-TCR FITC	Product Number	MR922230	50 tests

SPECIFICITY:

TCR Gamma/Delta: Clone V65; Recognizes constant determinant on Gamma/Delta chain of Rat T-cell receptor. Expressed also by a population of dendritic epidermal T lymphocytes. This antibody will stimulate the proliferation of T cells in presence of IL-2 or IL-4. Reactive in frozen tissue sections, paraffin tissue not tested.

Reference: Kuhnlein, P., et al, (1994), J. Immunology, 153:, 979-986.

IMMUNOGLOBULIN CHAIN COMPOSITION: Mouse IgG1

ANTIGENIX AMERICA clone V65

Immunoprecipitation has been achieved.

SOURCE : Affinity purified from murine tissue culture supernatant.

HANDLING AND STORAGE:

Purified monoclonal antibody provided as liquid preparation in a medium containing 0.01M phosphate-buffered saline, pH 7.4, 0.1% sodium azide. These preparations should be diluted in a protein-containing or other stabilizing medium to a concentration suitable for use in specific protocols. Small aliquots may be frozen at -20° C for long-term storage. Avoid repeat freeze-thaw. **DO NOT freeze conjugates.**

For flow cytometry, use at approximately 10 uL per test or approximately 2 ug to stain no more than one million cells.

WARRANTY:

Products sold hereunder are warranted only to conform to the quantity and contents stated on the label at the time of delivery to the customer. There are no warranties, expressed or implied, which extend beyond the description on the label of the product.
