

ANTIGENIX AMERICA, INC.

PRODUCT INFORMATION SUMMARY

Anti-Human VCAM-1 (Rabbit Polyclonal)

Purified Polyclonal Antibody	Product Number	RHF506 100.0 ug
Biotin Conjugate		RHF506B 50.0 ug

* Antigen-affinity Purified preparations.

SPECIFICITY:

Rabbit polyclonal antibodies to human VCAM-1, produced from highly purified recombinant human VCAM-1 immunogen (cell-derived). Antiserum fraction further purified by **Antigen-Affinity** chromatography, to produce highly specific, high titre preparation.

SOURCE: Rabbit antiserum.

RESEARCH APPLICATIONS:

Identification of human VCAM-1 in body fluids and tissue sections.

ELISA: Antibody concentration of 1.0 - 2.0 ug/mL (100 uL/well) was used to detect 0.4 ng/well recombinant VCAM-1.

For **Biotin Conjugate use @ 0.2 -0.5 ug/mL. (optimize)**

NEUTRALIZING ACTIVITY: not currently tested.

WESTERN BLOT: Antibody concentration of 0.2 ug/mL was used to detect 2.0 ng/lane of human recombinant VCAM-1 under both reducing or non-reducing conditions.

HANDLING AND STORAGE:

Reconstitute with 500 uL sterile or distilled water. For **Biotin conjugate, reconstitute in 0.5 mL sterile or distilled water containing 0.1% BSA.** Purified polyclonal antibody provided lyophilized from PBS. These preparations should be further-diluted in a protein-containing or other stabilizing medium to a concentration suitable for use in specific protocols. Small aliquots should be stored at -20° C for long-term storage.

Avoid repeat freeze-thaw cycles.

RESEARCH USE ONLY NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE.
