

PRODUCT INFORMATION SUMMARY

ANTI-Human Maspin (Polyclonal Rabbit)

PRODUCT NUMBER	RHF732	Affinity Purif.*	100.0 ug
	RHF732B	Biotin conjugate	50.0 ug

ANTIGEN DISTRIBUTION AND SPECIFICITY:

Rabbit polyclonal antibodies specific for Human Maspin. Developed using highly purified recombinant Human Maspin as immunogen. Further purified using antigen-affinity chromatography to produce highly specific preparation.

Characterization:

Western Blot: Use 0.2 ug/mL to detect 2.0 - 3.0 ng/lane rMaspin under reducing or non-reducing conditions.

ELISA: Concentration of 0.5 - 1.5 ug/mL (100 uL/well) was able to detect 0.2 - 0.4 ng/well human Maspin.

Neutralization: Data not currently available

HANDLING AND STORAGE:

Reagent supplied as lyophilized. **Store frozen at -20 deg. C.** Purified antibody should be reconstituted with 500 uL sterile or distilled water. Further dilutions should be made in a stabilizing buffer (PBS) to a concentration suitable for use in specific protocols. For **biotin conjugate**, reconstitute in distilled water containing 0.1% BSA. For long-term storage in freeze aliquots at high concentration. AVOID repeat freeze-thaw.
Provided preservative-free.

FOR RESEARCH USE ONLY. NOT INTENDED FOR THERAPEUTIC OR DIAGNOSTIC USE.
