

ANTIGENIX AMERICA, INC.

PRODUCT INFORMATION SUMMARY

Anti-gAcrp30/Adipolean (Polyclonal Goat)

Purified Polyclonal Antibody Product Number RHF920 0.1 mg
Biotin conjugate RHF920B 50.0 ug

SPECIFICITY:

Goat polyclonal antibodies to human gAcrp30/Adipolean, produced from highly purified recombinant human gAcrp30/Adipolean immunogen. Antiserum fraction further purified by **Antigen-Affinity** chromatography, to produce highly specific, high titre preparation.

SOURCE: **Goat** IgG antiserum. Lyophilized, additive-free

RESEARCH APPLICATIONS:

Identification of human gAcrp30/Adipolean in body fluids and tissue sections.

ELISA: Antibody concentration of approx. 1.0 ug/mL (100 uL/well) was used to detect 0.4 ng/well recombinant gAcrp30/Adipolean.

WESTERN BLOT: Antibody concentration of approx. 0.2 ug/mL was used to detect 3.0 ng/lane of human recombinant gAcrp30/Adipolean under both reducing or non-reducing conditions.

Neutralization: Not currently tested

HANDLING AND STORAGE:

Reconstitute with 500 uL sterile or distilled water. For **biotin conjugate**, reconstitute with 500 uL distilled water **containing 0.1% BSA**. Purified polyclonal antibody provided lyophilized from PBS, additive-free. These preparations should be further-diluted in a protein-containing or other stabilizing medium to a concentration suitable for use in specific protocols. Small aliquots may be frozen at -20° C for long-term storage. Avoid repeat freeze-thaw cycles.

**RESEARCH USE ONLY
NOT INTENDED FOR DIAGNOSTIC OR THERAPEUTIC USE.**
